To help improve air quality, an Ultra-Low Emission Zone (ULEZ) will be in place in Central London from 8th April 2019, in the same area as the Congestion Charge. Most vehicles, including cars and vans, will need to meet new, tighter exhaust emission standards (ULEZ Standards), or be liable for a daily charge to drive within the ULEZ area.

As a result, the APC Network are now introducing a London ULEZ/Congestion Surcharge, for all UK next day deliveries and this will affect postcodes which can be found at this link:

<https://tfl.gov.uk/corporate/transparency/freedom-of-information/foi-request-detail?referenceId=FOI-2241-1819>

Therefore from the **8th April 2019**, deliveries into these postcodes will attract a **£1.00** surcharge.
