

Fuel Surcharges

Our fuel surcharge for UK Sameday and UK Overnight deliveries is linked to the consumer price in Sterling (GBP) of diesel fuel – inclusive of duties and taxes – as measured by the European Commission Directorate for Energy and Transport and published in the Oil Bulletin.

For International shipments, the surcharge is based on the Jet Price Fuel Monitor as published by IATA. Prices are expressed in (SD) per US gallon.

Current fuel surcharge rates are as follows:

Service	Surcharge in %
Sameday	11.95%
UK Next Day	11.95%
International Air	15+ %*
Euro Road	15%

**please ask at time of booking*
